## KV GS2070: Best-in-Class Soft-Close Undermount

Our economy undermount slide highlights high quality craftsmanship with concealed soft-close technology that delivers a smooth, quiet close in such applications as fine wood office furniture and custom kitchen cabinetry. A 2D release lever (sold separately) offers tool-free adjustments. Recommended for drawer material thicknesses of 1/2" to 5/8".

- Model**
- **GS2070:** 75-lb class, full extension

2D release lever

## KV 8650FM Series Heavy-Duty Drawer Slide with Soft-Close

The 8650FM with patented soft-close technology is our first heavy-duty slide series built on our successful 8450FM soft-close platform.

The new slides accommodate wider drawers with heavier loads, giving cabinet makers even more capacity and strength to work with, as well as soft-close for fine residential cabinetry and commercial case goods. Butterfly lever disconnect; recommended for drawers up to 36" wide.

- Models**
- **KV 8650FM:** 150-lb class, full extension
  - **KV 8655FM:** 140-lb class, over travel

## Specialty Slides for Corrosive Environments

KV offers two slide series specially designed for use in wet or corrosive environments from boats to outdoor kitchens to greenhouses. Recommended for drawers up to 24" wide.

**Models**

- **KV 6300:** 100-lb. class, full extension corrosion resistant slide features a butterfly lever disconnect and USDA H-1 approved grease for use in food environments
- **KV 6400:** 100-lb. class, full extension stainless steel slide with lever disconnect and USDA H-1 approved grease for use in food environments.

## Slides for Metal Drawer and Cabinet Applications

These ball-bearing slides are designed for box or file drawers, tool box applications and more. A built-in system of belt-loops and bayonets provides tool-less installation on these handed, side-mount slides.

**Models**

- **KV 8420:** 100-lb class, medium-duty, full extension. Lever disconnect; recommended drawer width: 24"
- **KV 8425:** 90-lb class, medium-duty, over travel. Lever disconnect; recommended drawer width: 24"
- **KV 8620:** 150-lb. class heavy-duty, full extension. Butterfly lever disconnect; recommended drawer width: 36"
- **KV 8625:** 140-lb. class, heavy-duty, over travel. Butterfly lever disconnect; recommended drawer width: 36"
- **KV 8820:** 200-lb. class, heavy-duty full extension. Lever disconnect, recommended drawer width: 42"
- **KV 8825:** 190-lb. class, heavy-duty, over travel. Lever disconnect, recommended drawer width: 42"

## A Complete Offering of Soft-Close Slides

Designed with patented Force Management™ soft-close technology to accommodate the widest drawers with the heaviest loads in commercial and residential applications, these slides feature a butterfly lever disconnect and are recommended for drawers up to 48" wide.

#### Models:

- **KV 8850FM**: 200-lb class, full extension
- **KV 8855FM**: 190-lb class, over travel

## Steel Flat Rail Barn Door Hardware

Our new Steel Flat Rail components are a perfect fit for high-traffic, high-end commercial and residential properties, including offices and hotels, as well as ensuite bathrooms or warehouse room dividers.

### Features

- 6' and 8' rail lengths
- Top mount and face mount carrier styles
- Predrilled rails for mounting, coupling or soft-close add-on
- Stainless steel, oil-rubbed bronze, black or white (6' only) finish
- Supports doors up to 250 lbs.

## Mini Steel Flat Rail

A popular new trend – a smaller version of our Steel Flat Rail hardware for applications from vanities to kitchen islands, dressers, TV stands, window coverings and more. Sold in complete easy-to-install kits.

### Features

- 5'9" rail predrilled for mounting convenience
- Top mount or face mount carrier styles
- Suitable for door thicknesses of 1" – 1-3/16"
- Supports doors up to 44 lbs.
- Black matte powder coat finish

## Popular New Flat Rail Accessories

- Add KV's **Soft-close add-on** to the rail for a smooth, quiet open and close. It is compatible with any flat rail hardware, including KV's new steel flat rail segments which are conveniently pre-drilled to allow addition of the soft-close feature.

- Our **Bypass Bracket** functions in a 2-door bypass door configuration.

This ideal solution allows barn doors to overlap in applications where there's no wall space to accommodate the full sliding door, such as a closet. Five (5) brackets required for a 6' installation; 6 brackets for an 8' installation.

## Privacy Locks for Barn Doors

ADA-compliant privacy locks for commercial or residential use keep unexpected visitors out of bathrooms, bedrooms and other private areas. Building out the door frame or soffit is not required for installation, and the nonhanded design fits either side of the door opening.

### Features

- ADA-compliant round thumb-turn open/close function
- Two sizes: 2-1/4" backset for 2'x4' walls or 3-1/2" backset for 2'x6' walls
- Supports door thicknesses of 1-3/8" to 1-3/4"
- Stainless steel, oil rubbed bronze or black finish

## Ceiling Mount for KV Stainless Steel Round Rail Barn Door Hardware

Ideal for applications that lack space above the door for mounting traditional barn door hardware, the Ceiling Mount is designed for use with KV's Stainless Steel Round Rail sections. Its sleek stainless steel finish complements many settings, rustic to contemporary.

### Features

- High quality 304 Stainless Steel
- Use with KV Stainless Steel Round Rail (6' or 8' segments)
- Purchase 4 ceiling mounts for a 6' installation; 5 mounts for an 8' installation
- For wood or glass doors up to 135 lbs.

## Four Brands to Meet Your Requirements for Performance and Value

The KV® brand is the enduring slide of choice among builders of premium quality cabinetry, furniture and equipment.

Designed and built to exacting specifications, and marketed from our base in Grand Rapids, Michigan, USA, KV is the premium slide of choice among architects, designers and builders of high-end cabinetry, furniture and equipment.

KV GSlide™ is our best-in-class ball-bearing import slide, manufactured by KV Asia in Taiwan and favored by cabinet makers with cost sensitive projects.

KV Tru-Trac® is an import built for economy and performance aimed at value-conscious professionals.

KV DuriSlide™ is an economy grade slide engineered to compete with today's value-priced slides.
